

We are always looking for unconventional thinkers, who like to implement their expertise hands-on at international clients.

Support and consult together with us Global Player regarding exciting topics like Instant Payments, Blockchain and Cryptography. Innovative solutions, highly qualified experts and complex software have been distinguishing us with our customers for more than 20 years. Become part of our team today!

We are looking for a

JAVA ENTERPRISE SPECIALIST (m/f/d)

YOUR TASKS

- Development of creative, innovative and sustainable software solutions with the aid of agile methodologies (SCRUM)
- Specification and documentation of technical solutions with the SCRUM Team
- Application of established frameworks and platforms (e.g. Spring, Hibernate, Hybris)
- Close cooperation and communication with the Product Owner and SCRUM Master
- Active participation in the continuous improvement of the quality within the team and company

YOUR PROFILE

- Successfully completed technical degree with an IT focus (technical/university of applied sciences or similar institutions)
- Initiative and willingness to learn
- Excitement for software development as well as constant interest in recent developments (especially in the areas of Java, web, mobile, Open Source)
- High degree of personal responsibility
- Analytic capability of thinking
- Experience in object-oriented software development (ideally experience in Java and JEE)
- Basic database knowledge (modelling, SQL)
- German and English spoken and written
- Open and communicative personality
- Enjoy working in a team

OUR OFFER

- interesting national and international projects
- strong capacity to act and good development opportunities
- collegial and highly-professional team
- flat hierarchies and short communication paths

An internationally oriented field of activity, international customers as well as an attractive salary package are waiting for you. If you want to contribute to the success of our company in a friendly team, please send your application documents indicating your salary expectations and your earliest possible entry date via e-mail to Mrs. Astrid Bumberger, career@be-stf.de.
