

Choose our product **safeX™** and join the secure data exchange

The ongoing digitization leads to an increasing demand for crypto solutions such as encryption methods or electronic signature. These functionalities come to use in digital payment processes or automated invoicing processes.

The safeX™ software provides your company with the functionalities of encryption and electronic signature, and ensures secure data exchange.

Electronic signature (e-signature)
methods and cryptographic algorithms for successful data and document processing

Secure data exchange
and safeguarding of sensitive data

safeX™ eBundle
for audit-proof archiving of your documents

safeX™ Software

Our software product family safeX™ has been developed to provide you with various possibilities to optimize the management of your financial supply chain. With our long-term professional expertise, safeX™ keeps growing and maturing according to the company-specific needs of our customers.

Our Solution

safeX™ offers you the successful processing of your documents. It allows you to sign, verify, encrypt, and decrypt data. Here, a secure algorithm is used for your sensitive data. Public Key Infrastructure is used to read certificates and signatures. The additional feature “eBundle” offers you the preparation of your documents for audit-proof archiving and reduces the printing of documents. The software family is compliant to EU laws and current international standards, e.g. ISO, and offers a high reliability.

Combination of information

from different business processes for increasing transparency and comprehensibility

Fulfilling compliance

regarding international standards, EU laws, and organizational requirements

Monitoring

of the entire signing, verification, decryption, and encryption process

Management

of authorizations in-house

About Be

Be AG enables leading financial services organisations across Europe to manage the complexity of business transformation. We work alongside our customers to help them achieve the most ambitious targets: (re)designing business models, aligning them with regulatory and market requirements, entering the digital age.

We believe that success is driven by collaboration and a passion for performance. Our growing team of over 1,500 diverse, highly skilled specialists combines industry knowledge with extensive practical experience. We work with global players who are shaping the present and future landscape of finance. At Be AG, we offer our clients strategic and operational services from management consulting to solutions development.

Why Choose Us?

Combining the comprehensive functionalities of the safeX™ software solution with over 22 years consulting expertise in the fields of payments and especially SWIFT, we are the ideal partner for your approach to successful document processing.
